Subject: Microsoft Settlement

To Whom It May Concern:

I would just like to say that I have read about the proposed settlement, and I am not in favor of it in its current state. The proposed settlement will do nothing to change Microsofts monopolistic acts. In that case, what use was the trial?

IMO, Microsoft is not only a monopoly, but a bad company with bad business ethics in general. How much longer do people have to bear putting up with this? I understand that the average person does not fully comprehend whats at stake now or in the future if Microsoft continues its current practices. But You have the power to change that now.

If not now, then when?
